

CLASS Year 4

Maths

Children will learn about tenths and hundredths. They will order, compare and round decimals.

Topic Web

English - Reading

Continue reading 'Varjak Paw'

Summer Term 1

English - Writing

Text: Arthur and the Golden Rope. Children will write adventure and quest stories. Improve description and sentences

Computing

We will learn how to program and debug a simple computer game.

History

Indus Valley Enquiry: How do we know about it and what can we learn from the artefacts and architecture?

RE

Children will learn that, for Christians, what was the impact of Pentecost?
[Kingdom of God]

Art

Collage: cut, rip and stick different surfaces to create art. Use the technique of layering.

PSHE

Children will learn about relationships, particularly jealousy. They will understand loss and the negative feelings it causes. Memories support loss.

Music

Children will learn to play up to 5 notes on the French horn.

MFL - French

Children will be able to talk about Paris landmarks. They will say which animals they like and don't. They will learn question words and learn a French song.

Science

We will be learning about the digestive system and comparing it to other animals

PE

The children will improve their co-ordination and agility. They will apply these skills to athletics events.
