

## Jellyfish Year 3

### Maths

We will continue building our fraction knowledge, starting to explore decimal numbers, and then onto improving our time reading skills.

## Topic Web

### English - Reading

We will explore a range of different text types, comparing them and improving our inference and retrieval skills.

## Summer Term 1

### English - Writing

We will use Leon and the Place Between to influence our writing styles and create a descriptive narrative.

### Computing

We will learn how to use spreadsheets, inputting data and creating graphs.

### History

The Roman Empire is the historical period we will be exploring this term, understanding how and why the Romans invaded Britain.

### RE

We will identify some Jewish beliefs about God and how Jews show their beliefs through worship in festivals and celebrations.

### Art

By developing our understanding of line and tone we will improve our drawing skills.

### PSHE

#### Relationships

Internet safety will be our main focus as well as exploring the roles of our families and friends.

### Music

An orchestral performance will influence our own compositions and performances.

### MFL - French

We will continue to build on our French vocabulary for country names and capital cities as well as building on our number recall.

### Science

Flowering plants and seed dispersal are important areas of study in science this term.

### PE

Jumping, throwing and running will be our focus in our Athletics lessons this term building up to sports day.
